

The It's InU2 Mentor's Day

- A one day interactive experience that is both informative and fun. It will provide you with additional mentoring ideas and a set of creative young people's resources.
- A day that will give you and your colleagues, the opportunity to have time out from your busy lives. It will give you and your colleagues renewed energy and plenty of new and different practical ideas.
- A day that offers ideas for building your toolbox of resources, tips and techniques for encouraging young people to tell 'their story', explore their interests and set meaningful goals.
- A chance for you to explore for yourself, some of the same mentoring activities that the young person will carry out for themselves.
- A day that will enable you to increase a young person's understanding of themselves, develop their ability to communicate their strengths and build up self-confidence.
